FOREIGN MARKETS.

Brighter Outlook in London-Berlin Inactive.

London, July 29.-Last week the expericonce of the stock exchange was in some respects unsatisfactory, but on the whole the market closed with a brighter outlook than that with which it began. The respects of the prospects of a serious rational way stock also relieves the situation. The naxiety regarding the Chinese uprising and the prospect of dearer money still cloud the financial horizon, but yesterday's prospect was more cheerful, although it is not likely that business will become brisker during the coming week. In view of the bank holiday on Aucust 8, it is probable that the markets will be closed from Friday until Taursday, when the dividend amouncements and the bear coverings caused a sharp rully, but prices are still below the point where the fall began.

Among the increases were Chicago, Milwankee, and St. Paul, which rose is point. Launsville and Nashville, is flatimore and Onio is, Union Pacific is, and Southern preferred, while Reading preferred fell is point. Money was in good demand; until Menday 2 to 35 per cent; fixures 32 to 35, and three months' bills 64 to 48.

BERLIN MARKET.

Berlin, July 22.—Last Boerse was extremeence of the stock exchange was in some respects unsatisfactory, but on the whole

BERLIN MARKET.

three months' bills 6, to 4, t

where gold exports were possible, but it declined half a pfg, yesterday. The Reichsbank status continues to improve, the het reserve reaching 12,000,000 marks, against \$1,000,000 marks were \$1,000,000 marks, against \$1,000,000

Sugar.

The July ctop reports show a further improvement upon June in wheat, and German flax spinners have arranged a convention for the regulation of terms of payment and delivery. The situation of the worsted spinners is very unsatisfactory. The production has been restricted 20 per cent to prevent a further fall in yarns.

MANCHESTER DULL.

MANCHESTER DULL.

Manchester, July 29—Business last week showed no improvement, transactions being hard to effect and small in amount. Yarns especially showed depression. The stocks are cumbersome and users buy small parceis only, prices being 1-16c easier, Cloths have been a good Indian inquiry, chiefly fine goods from Egyptian yarns.

Caicuita booked some shirtings during the week at cut prices. The China situation embarrasses the market and brings cancellations. There are reports of shirtings being shipped from Shanghai to India. dia.

A fair business was done for Egypt, the Levant and South America at easy prices. On the whole cloth closed showing better than yesteriay. There is a plenty of orders but price limits are largely prohibited.

Madrid, July 25.—The Bank of Spain report for the week ended yesterday shows the following: Gold in hand, no change, aliver in hand increased 150,000 pesents; notes in circulation increased 150,000 pesents; gold was quoted yesterday at 77.50.

1804.

Light green figured percale was chosen for this attractive frock, with trimmings of plain green ploue.

The waist is mounted on a fitted lining which closes in the center back. The full form and backs are applied on the lining body, at a yoke depth, the fullness being gathered at the lower edge and drawn down close in the back, forming a slight blonce in front over the narrow plane belt. The neck is completed by a comparatively high, straight collar.

6, 8, 10 and 12 years.

The correct two-piece sleeves are finished with a narrow ruifle surmounted by mercerized cotton braid.

Over the shoulders is a pretty drop yoke of pique, which is adjusted with shoulder seams and closes in the center back. The lower edge is shaped in scalloped outline, extending over the sleeves to form a cap. The shallow yoke of pique run to the neck if preferred.

The little four-piece skirt is shaped with narrow front gore and wide sides, which extend almost to the center back, where they meet the double box plait. It fits smooth around the waist and over the bips, the box plait being flatly pressed and retaining its shape to the lower edge. A band of pique is applied around the skirt in scalloped outline to match the yoke. It is anished with a narrow cotton braid.

This mode is appropriate for cotton cheviot, gingham, madras and dimity with lace, embroidery or inserted tucking for trimming. It may also be stylishly developed in cashinere. Henrietta, Venetian, drap d'ete or covert and decorated with braid, ribbon, velvet or silk.

The broad band around the skirt may be left off and the scallops traced with frilled ribbon or narrow velvet producing the same effect.

To make the dress for a sirl 8 years old
